ABOUT

MERN Stack Developer experienced in building full-stack web applications with secure authentication, admin dashboards, and RESTful API integrations. Independently delivered a production-ready client website from concept to deployment, and contributed production-ready UI components and resolved 20+ usability issues as a Full Stack Developer Intern at Alomonx Technology. Skilled in React.js, Node.js, Express.js, and MongoDB.

TECHNICAL SKILLS

Frontend: React.js, JavaScript, HTML, CSS, Tailwind CSS, Bootstrap, GSAP, Responsive Web Design
Backend: Node.js, Express.js, REST APIs, JWT Authentication, OTP-based Authentication, Session Management, Cookies, bcrypt, Nodemailer, Resend
Database: MongoDB, MongoDB Atlas
Programming: JavaScript
Tools: Git, GitHub, Postman, Cloudinary, MongoDB Compass, VS Code, Vercel

EXPERIENCE

Alomonx Technology Jul 2026 – Sep 2026
Full Stack Developer Intern Remote

- Developed 12+ reusable React.js components using React.js, JavaScript, and Tailwind CSS while contributing to 5 web application pages.
- Built responsive user interfaces, ensuring a seamless experience across desktop, tablet, and mobile devices.
- Resolved 20+ UI issues and collaborated with the development team to enhance application usability and user experience.

PROJECTS

Interior Design Studio Website – Chandak & Associates

MERN Stack | **Live Demo**

- Independently designed and developed a full-stack website end-to-end for a real client, handling both client-side and server-side development.
- Built a secure JWT-authenticated admin panel enabling non-technical staff to manage services, projects, and site content without direct database access.
- Integrated Cloudinary API to securely manage project images and developed a Nodemailer-powered contact form for automated client inquiries.
- Implemented category filtering and incremental pagination to improve gallery browsing performance.
- Designed a fully responsive, mobile-first interface using Tailwind CSS, improving usability across desktop, tablet, and mobile devices.

AI Text Assistant | *MERN Stack, Ollama, Llama 3.2, MongoDB* | GitHub

- Developed a full-stack AI Text Assistant using React, Node.js, Express.js, and MongoDB.
- Integrated Ollama with the Llama 3.2 local language model to generate AI responses without relying on paid AI APIs.
- Implemented chat history management, including creating, viewing, and deleting conversations.
- Built a responsive chat interface with dark/light mode, loading indicators, and error handling.

EDUCATION

SND College of Engineering and Research Center 2025
Bachelor of Engineering in Computer Engineering | GPA: 7.82 / 10.0 Yeola
